IIT's
Proprietary
Lasers
Exceed
Industry
Standards

Advanced Laser Technology Produce Superior Stencils

Premier SMT stencil manufacturer Integrated Ideas & Technologies (IIT), utilizes proprietary laser technology to create superior stencils. Exceeding the industry standard in cutting technology, IIT's lasers feature proprietary optical tuning cavity technology to produce an exacting laser spot diameter of less than 0.001 combined with tuned rep rate and pulse width. The result: ultra-precise walls and superior paste release.
