## **Foxconn Looks Toward Indonesia**

Written by Chelsey Drysdale Thursday, 28 June 2012 19:00 -

**JAVA, INDONESIA** – **Foxconn** plans to construct a large manufacturing site in Indonesia, according to published reports.

The firm could employ as many as one million people there.

The investment is estimated at more than \$1 billion.

The nation reportedly offers reduced labor and operating costs compared to other locations.
