GUADALAJARA – KIC Thermal has launched a repair and calibration center here to meet increased customer demand.

Customers can send profilers and other KIC equipment to the Guadalajara service center, thus bypassing US customs. The new office also means faster turnaround times and less expensive services, the firm says.

To use KIC's service office in Guadalajara, contact Miguel Carbajal at +52 1 33 1605-5094 or e-mail mcarbajal@kicmail.com.
