## **Delta Group Relocates Dallas EMS Plant**

Written by Mike Buetow Monday, 03 December 2012 10:06 -

**GRAND PRAIRIE, TX -- Delta Group Electronics** has leased 50,000 sq. ft. of industrial space in this Dallas suburb for its regional office and manufacturing operation.

The electronics manufacturing services company will relocate from a similar-sized facility, also in Grand Prairie, where it has been located since it bought **Assembly Solutions** in 2006.

The Dallas site, one of six the EMS firm runs, performs turnkey printed circuit board and wire harness assembly.
