---

**MANASSAS, VA – Zestron** and **Speedline** are presenting a free 45-minute webinar as part of a series: Inline Cleaning Equipment & Process Optimization.

Jigar Patel, senior process engineer, Zestron America, and Greg Hueste, applications engineer, Speedline Technologies, will offer the webinar Mar. 14 at 1:00 PM EDT.

This webinar reviews parameters affecting inline cleaning system performance, process optimization and efficiency. Aspects affecting cleaning, rinsing and drying performance will be explored. Hueste will review the importance of chemical isolation when it comes to cleaning with a cleaning agent.
