---

**EL SEGUNDO** – The consumer electronics market continues to show improvement for 2009, increasing to \$81.7 billion in the third quarter, up more than 11% sequentially, says

**iSuppli Corp**

.

Nevertheless, the market was down 6.1% in the third quarter compared to the same period in 2008, showing a dampening effect by the economy on consumer electronics revenues, says the firm.
